

**CLEAN VERSION OF REWRITTEN OR ADDED CLAIMS  
PURSUANT TO 37 CFR § 1.21 (c)(1)(i)**

Please cancel Claims 13 and 14.

Please amend the following claim.

- 
7. (Twice Amended) A method of treatment, comprising:
- D1      a) providing:
- i) a mammal having symptoms of sepsis,
  - ii) a therapeutic preparation, comprising anti-TNF- $\alpha$  and anti-IL-6 antibodies; and
  - iii) administering said preparation to said mammal wherein said symptoms are reduced.
- 

Please add the following claims.

- 
24. (New) A method of treatment, comprising:
- D2      a) providing:
- i) a mammal at risk for sepsis,
  - ii) a therapeutic preparation, comprising anti-TNF- $\alpha$  and anti-IL-6 antibodies; and
  - iii) administering said preparation to said mammal.
25. (New) The method of Claim 24, wherein said therapeutic preparation further comprising anti-IFN antibodies.
26. (New) The method of Claim 24, wherein said mammal is a human.
27. (New) The method of Claim 24, wherein said administering is performed intravenously.
-

- D2  
cont.
28. (New) The method of Claim 24, wherein said administering is performed orally.
29. (New) The method of Claim 24, wherein said administering is performed parenterally.
30. (New) The method of Claim 24, wherein said antibodies are polyclonal antibodies.
31. (New) The method of Claim 30, wherein said polyclonal antibodies are avian.
32. (New) The method of Claim 31, wherein said avian antibodies are chicken antibodies.
33. (New) The method of Claim 32, wherein said chicken antibodies are derived from chicken eggs.
